## Bass Tracker Boats

## All Gear

There are over 2,500 documented species of fish in Brazil's Amazonia, the epitome of "exploratory fishing!" These selected species are the most attractive one after world's famous **PEACOCK BASS**. Expect an average of 20 fish per boat, nothing less than 5 lb.

## ALL TACKLE

Feb. 2009, Bill Gassmann from Iowa - USA, on his first trip to Amazonia, caught the most amazing fish of all times on the day before his last day onboard of our operation - the 28 lb **PEACOCK BASS**. He was breaking the previous world record (27 lb.) after 16 years, and after all, changing our business and its aspects forever. We believe that experienced guides, the best gear, and bass tracker boats along with the expertise of moving to the right spots are the goal to fulfill any guest expectations...

...and yes, we can hook you up with one of those.

WHO *WE ARE*

## *MARIA FOUNDATION*

(MEDICAL ASSISTANCE IN THE RIVERS OF THE AMAZON)

At the MARIA Foundation, we are dedicated to delivering essential dental and medical care to the local communities that call the vibrant Amazonia Rivers their home. We believe in the importance of giving back to those who share this magnificent ecosystem with us.

Our mission extends beyond healthcare; we are committed to safeguarding the future of the Amazon. We practice sustainable fishing methods, such as catch-and-release, and actively promote environmental awareness within the communities we serve.

Our initiatives include eco-treating water resources and implementing comprehensive recycling.

At MARIA Foundation, we embrace our responsibility to protect and respect this invaluable natural resource while improving the well-being of its inhabitants. Together, we can create a healthier, sustainable future for the Amazon and its people.

*Thank You!*
